

SCIENSANO PRIMARY CARE STUDY DAY – 15/10/2024 – DR. CAROLINE VERLINDE

Primary Care Zones (PCZ) & Population Health Management

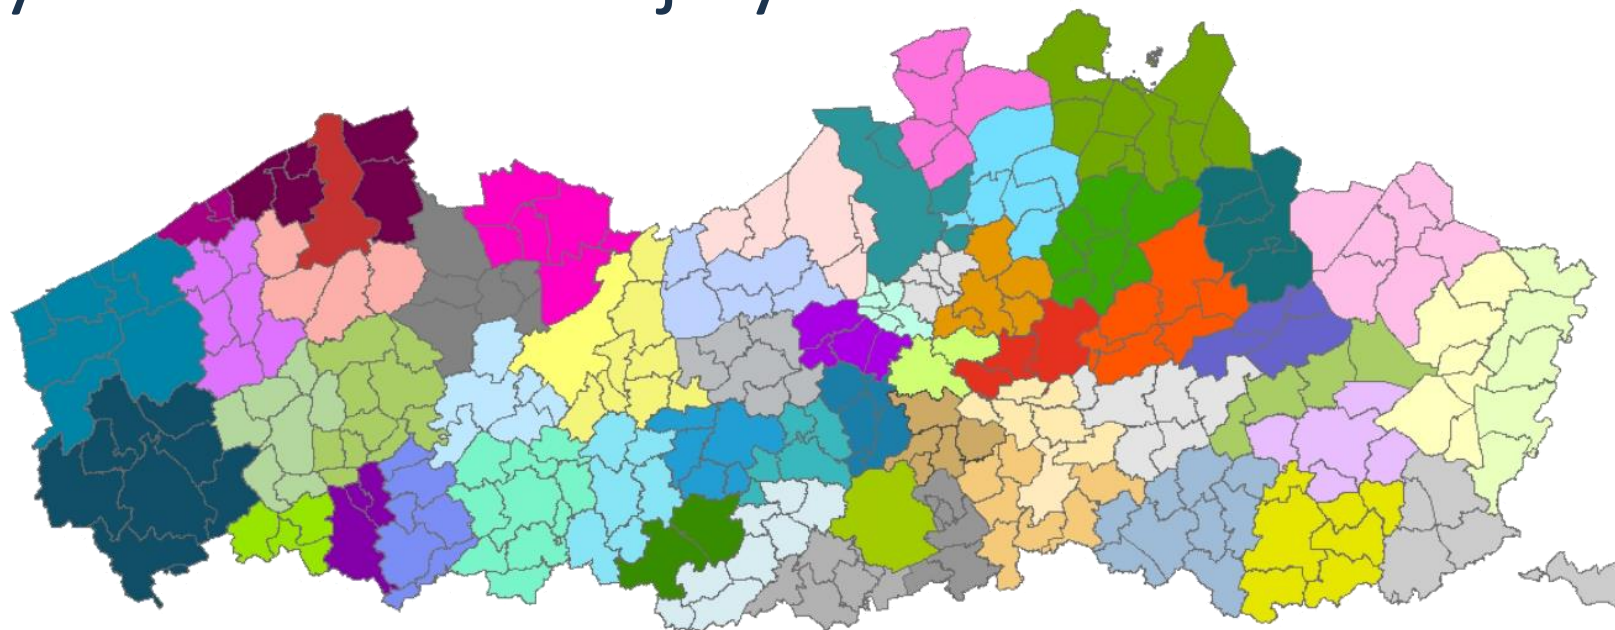

The Quintuple Aim: the compass for all our strategies and decisions

Structuring primary care in Flanders since 2018

60 primary care zones since July 2018

Multidisciplinary and intersectoral collaboration

75.000 à 125.000 inhabitants

Governance => primary care boards

Freedom of choice for citizens

Need more information?
Do you know your primary care zone?

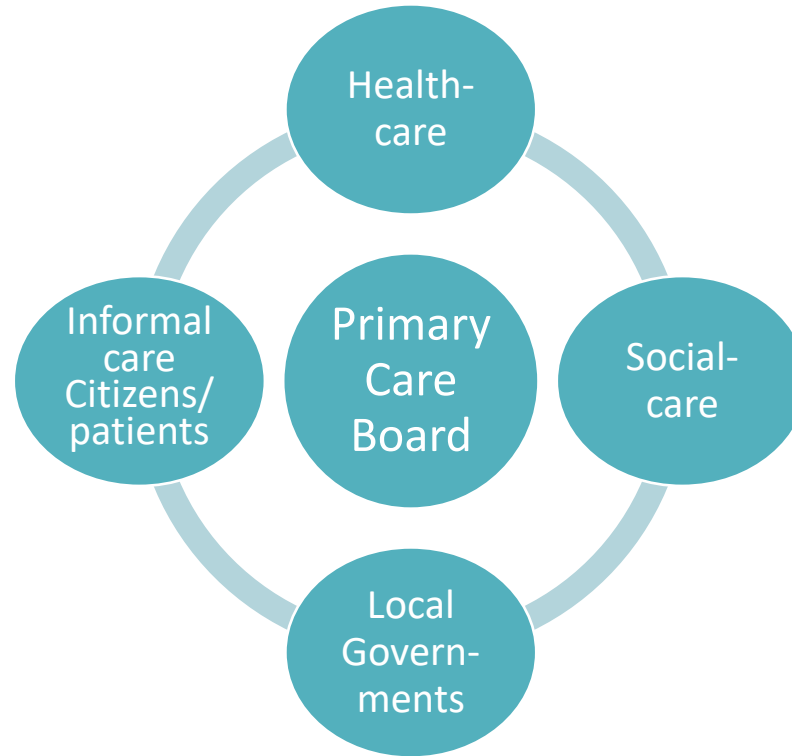

www.eerstelijnszone.be

Structure of a Primary Care Board

- General Assembly (vertegenwoordiging brede achterban)
- Governing Body

- 4 'clusters'

- Equality discision of the clusters (majority per cluster and majority as a whole)
- 'VAPH' and 'Opgroeien' are partners in the social care cluster

What does a primary care board do?

Align the organization and supply of high-quality care with the care needs within the PCZ by determining priorities in dialogue with

- Associations of Informal Care / Patients / Volunteers
- Primary care providers
- Local governments

Supporting local social policy

- E.g. coordinating multi-year plan
- E.g. supplying data from their environmental analysis

Support in the organization of high-quality and integrated care

Contribute to policy objectives of the department of health (WPHF)

PHM & Primary care boards

“The move towards population health management will offer insight into how multi-disciplinary teams can more efficiently work together to create a more personalised offering that responds to what matters to people, not what is wrong with them.”
