SIMID

Simulation Models of Infectious Diseases

UNamur & VUB

Main research focus:

- ‘pandemic preparedness’
- projects at different levels:
 - Modelling Consortium - BE-PIN
(<https://www.pandemicintelligence.be/>)
 - European project: Escape
(<https://www.escapepandemics.com/>)
 - WHO specific working groups
- primary care
 - surveillance
 - risk assessment
 - collaboration

Primary care study day
15 October 2024

Surveillance

Different surveillance systems

- complementary streams

Prediction & early warning

GLOBAL HEALTH POLICY

By Mark Jit, Kylie Ainslie, Christian Althaus, Constantino Caetano, Vittoria Colizza, Daniela Paolotti, Philippe Beutels, Lander Willem, John Edmunds, Baltazar Nunes, Sónia Namorado, Christel Faes, Nicola Low, Jacco Wallinga, and Niel Hens

COMMENTARY

Reflections On Epidemiological Modeling To Inform Policy During The COVID-19 Pandemic In Western Europe, 2020-23

What I didn't talk about that much:

- Antibiotic use (prescription behaviour)
- Collaboration INTEGO
- Population health management
- Data science perspective (federated data analysis)
